ORGANISATION DETAILS	
Organization Name	Flamestar Ltd (T/A Crestone Property Maintenance)
Company Registration	15321673
Registered Address	142–143 Parrock Street, Gravesend, Kent, DA12 1EY
Trading Address	The Atrium, Office 540, 1 Harefield Road, Uxbridge, UB8 1PH
Director	Amandeep Singh
Date of Plan	June 2026
Review Date	June 2027

1. COMMITMENT TO NET ZERO

Flamestar Ltd is committed to achieving net zero greenhouse gas emissions across its operations and supply chain by 2050, in line with the UK Government's legally binding net zero target under the Climate Change Act 2008 (as amended).

As a small and medium-sized enterprise operating in the UK property maintenance and construction sector, we recognise that our activities — including transport, on-site works, materials use, and waste management — contribute to carbon emissions. This Carbon Reduction Plan sets out our current emissions baseline and the specific actions we are taking to reduce them year on year.

This plan has been approved and is signed by the Director of Flamestar Ltd.

2. CURRENT EMISSIONS BASELINE

Flamestar Ltd has assessed its carbon footprint across the three primary emission scopes:

FLAMESTAR LTD

Registered Office:

Gravesend, DA12 1EY
T: 0330 1331 221
E: info@flamestarltd.com
W: www.flamestarltd.com

Scope	Description	Estimated Baseline (tCO2e)
Scope 1	Direct emissions — company vehicles and on-site plant	Est. 8.5 tCO2e
Scope 2	Indirect emissions — purchased electricity for office operations	Est. 1.2 tCO2e
Scope 3	Value chain — subcontractor travel, materials, waste disposal	Est. 12.3 tCO2e
Total Estimated Baseline Emissions (2024/25)		Est. 22.0 tCO2e

Note: As an SME, Flamestar Ltd is in the process of establishing a formal measurement methodology. The figures above represent management estimates based on DEFRA emission factors and will be refined as our measurement capability develops.

3. CARBON REDUCTION TARGETS

Reduction Milestones	
2026	Establish formal carbon measurement baseline across all scopes
2028	Reduce Scope 1 emissions by 20% vs 2025 baseline through fleet transition
2030	Reduce total emissions by 35% vs 2025 baseline
2035	Reduce total emissions by 60% vs 2025 baseline
2040	Achieve 80% reduction. Begin Scope 3 supply chain reduction programme.
2050	Net zero across all scopes in line with UK Climate Change Act commitment

4. CARBON REDUCTION ACTIONS

Flamestar Ltd is taking the following specific actions to reduce emissions:

Ref	Action	Target Date	Scope Addressed
1	Transition company vehicles to electric or ultra-low emission vehicles (ULEVs) as leases expire	2028	Scope 1
2	Implement route optimisation for all operatives to reduce unnecessary mileage	2026	Scope 1 & 3
3	Switch office electricity supply to 100% renewable energy tariff	2026	Scope 2
4	Source materials from suppliers with verified environmental credentials and low-carbon alternatives where available	2027	Scope 3
5	Include carbon reduction requirements in subcontractor pre-qualification to reduce Scope 3 supply chain emissions	2027	Scope 3
6	Reduce construction waste to landfill by maximising recycling and reuse on all sites via licensed waste carrier CBDU590603	2026	Scope 3
7	Implement formal annual carbon reporting using DEFRA emission factors and publish results	2026	All
8	Provide carbon awareness training to all operatives and management annually	2027	All
